OUR PRESENCE
Director’s Desk

At Guma Tech, we always strive for perfection. After more than two decades in the supply of ship equipment, we can say confidently we are still striving to achieve perfection. We have realised that perfection = X / 0 = ∞. We are increasing the value of X in our endeavours balancing it against commercial viability.

I am guided by the below Shloka originally in Sanskrit:

Education / Knowledge gives humility
Humility gives industriousness
From industriousness comes wealth
From wealth: Charity and then happiness

We, at Guma Tech, understand the constraints under which the technical department works, only too well and we try our best to supply the new/reconditioned/used equipment at the most economical rates in the best possible time frame.
